What We Do

ORACLE

E-BUSINESS SUITE

The Oracle consulting practice at CCP Global delivers outstanding business services and solutions to our industry-leading clients. Armed with the power of Oracle solutions, CCP Global professionals bring their extensive integration experience, education and training capabilities together with complementary tools and methodologies to provide seamless business transformation to each client.

Oracle provides innovative software that helps its customers manage and grow their businesses and operations. Oracle's products include an integrated suite of business applications software and other business software infrastructure, including application server, collaborative software and development tools.

Our Oracle expertise covers:

- Consulting
- Implementations
- Integration
- Upgrades
- Maintenance
- Enhancements
- Long-Term Support
- Staff Augmentation

Our expertise, along with the Oracle products will enhance our clients to deliver real business value - regardless of location or size.

ORACLE

PEOPLESOFT ENTERPRISE

CCP Global's PeopleSoft Enterprise consulting practice has implemented PeopleSoft solutions for almost a decade to help clients outpace their competitors. With over 50 successful projects to date, our consultants have extensive experience implementing PeopleSoft solutions with a track record for delivering a cost-effective product.

The PeopleSoft Enterprise Suite is a family of best-in-class applications designed for flexible configuration in many industries and is ideally suited for large, company-wide functions such as human resources, finance, IT, procurement, marketing, services and sales.

CCP Global understands that our clients' success is about much more than implementing PeopleSoft solutions on time and on budget, or replacing an old system with a new one. CCP Global wants our clients to experience cost reductions, revenue growth, total spend management and the improved use of corporate assets.

Our PeopleSoft expertise covers:

- Consulting
- Implementations
- Integration
- Upgrades
- Maintenance
- Enhancements
- Long-Term Support
- Staff Augmentation

As a leader in PeopleSoft Implementations, Consulting and Support, CCP Global will enable you to achieve real cost savings and returns on your technology investments.

ORACLE

JD EDWARDS ENTERPRISEONE

CCP Global Professional Services was built with professionals that have a strong background in technical and functional knowledge of Enterprise Applications. Our J.D. Edwards's relationships and depth of experience provides a wealth of capability for your organization.

CCP Global offers comprehensive strategic guidance for Global 2000 & Mid Market companies seeking to implement J.D. Edwards projects or continue to expand the J.D. Edwards environment.

Our J.D. Edwards expertise covers:

- Consulting
- Implementations
- Integration
- Upgrades
- Maintenance
- Enhancements
- Long-Term Support
- Staff Augmentation

Whether you're looking to cover short term staff augmentation or a full implementation, or anything in between, our professionals can provide the services to meet your organizations goals.
